

## Product Imprint Guide

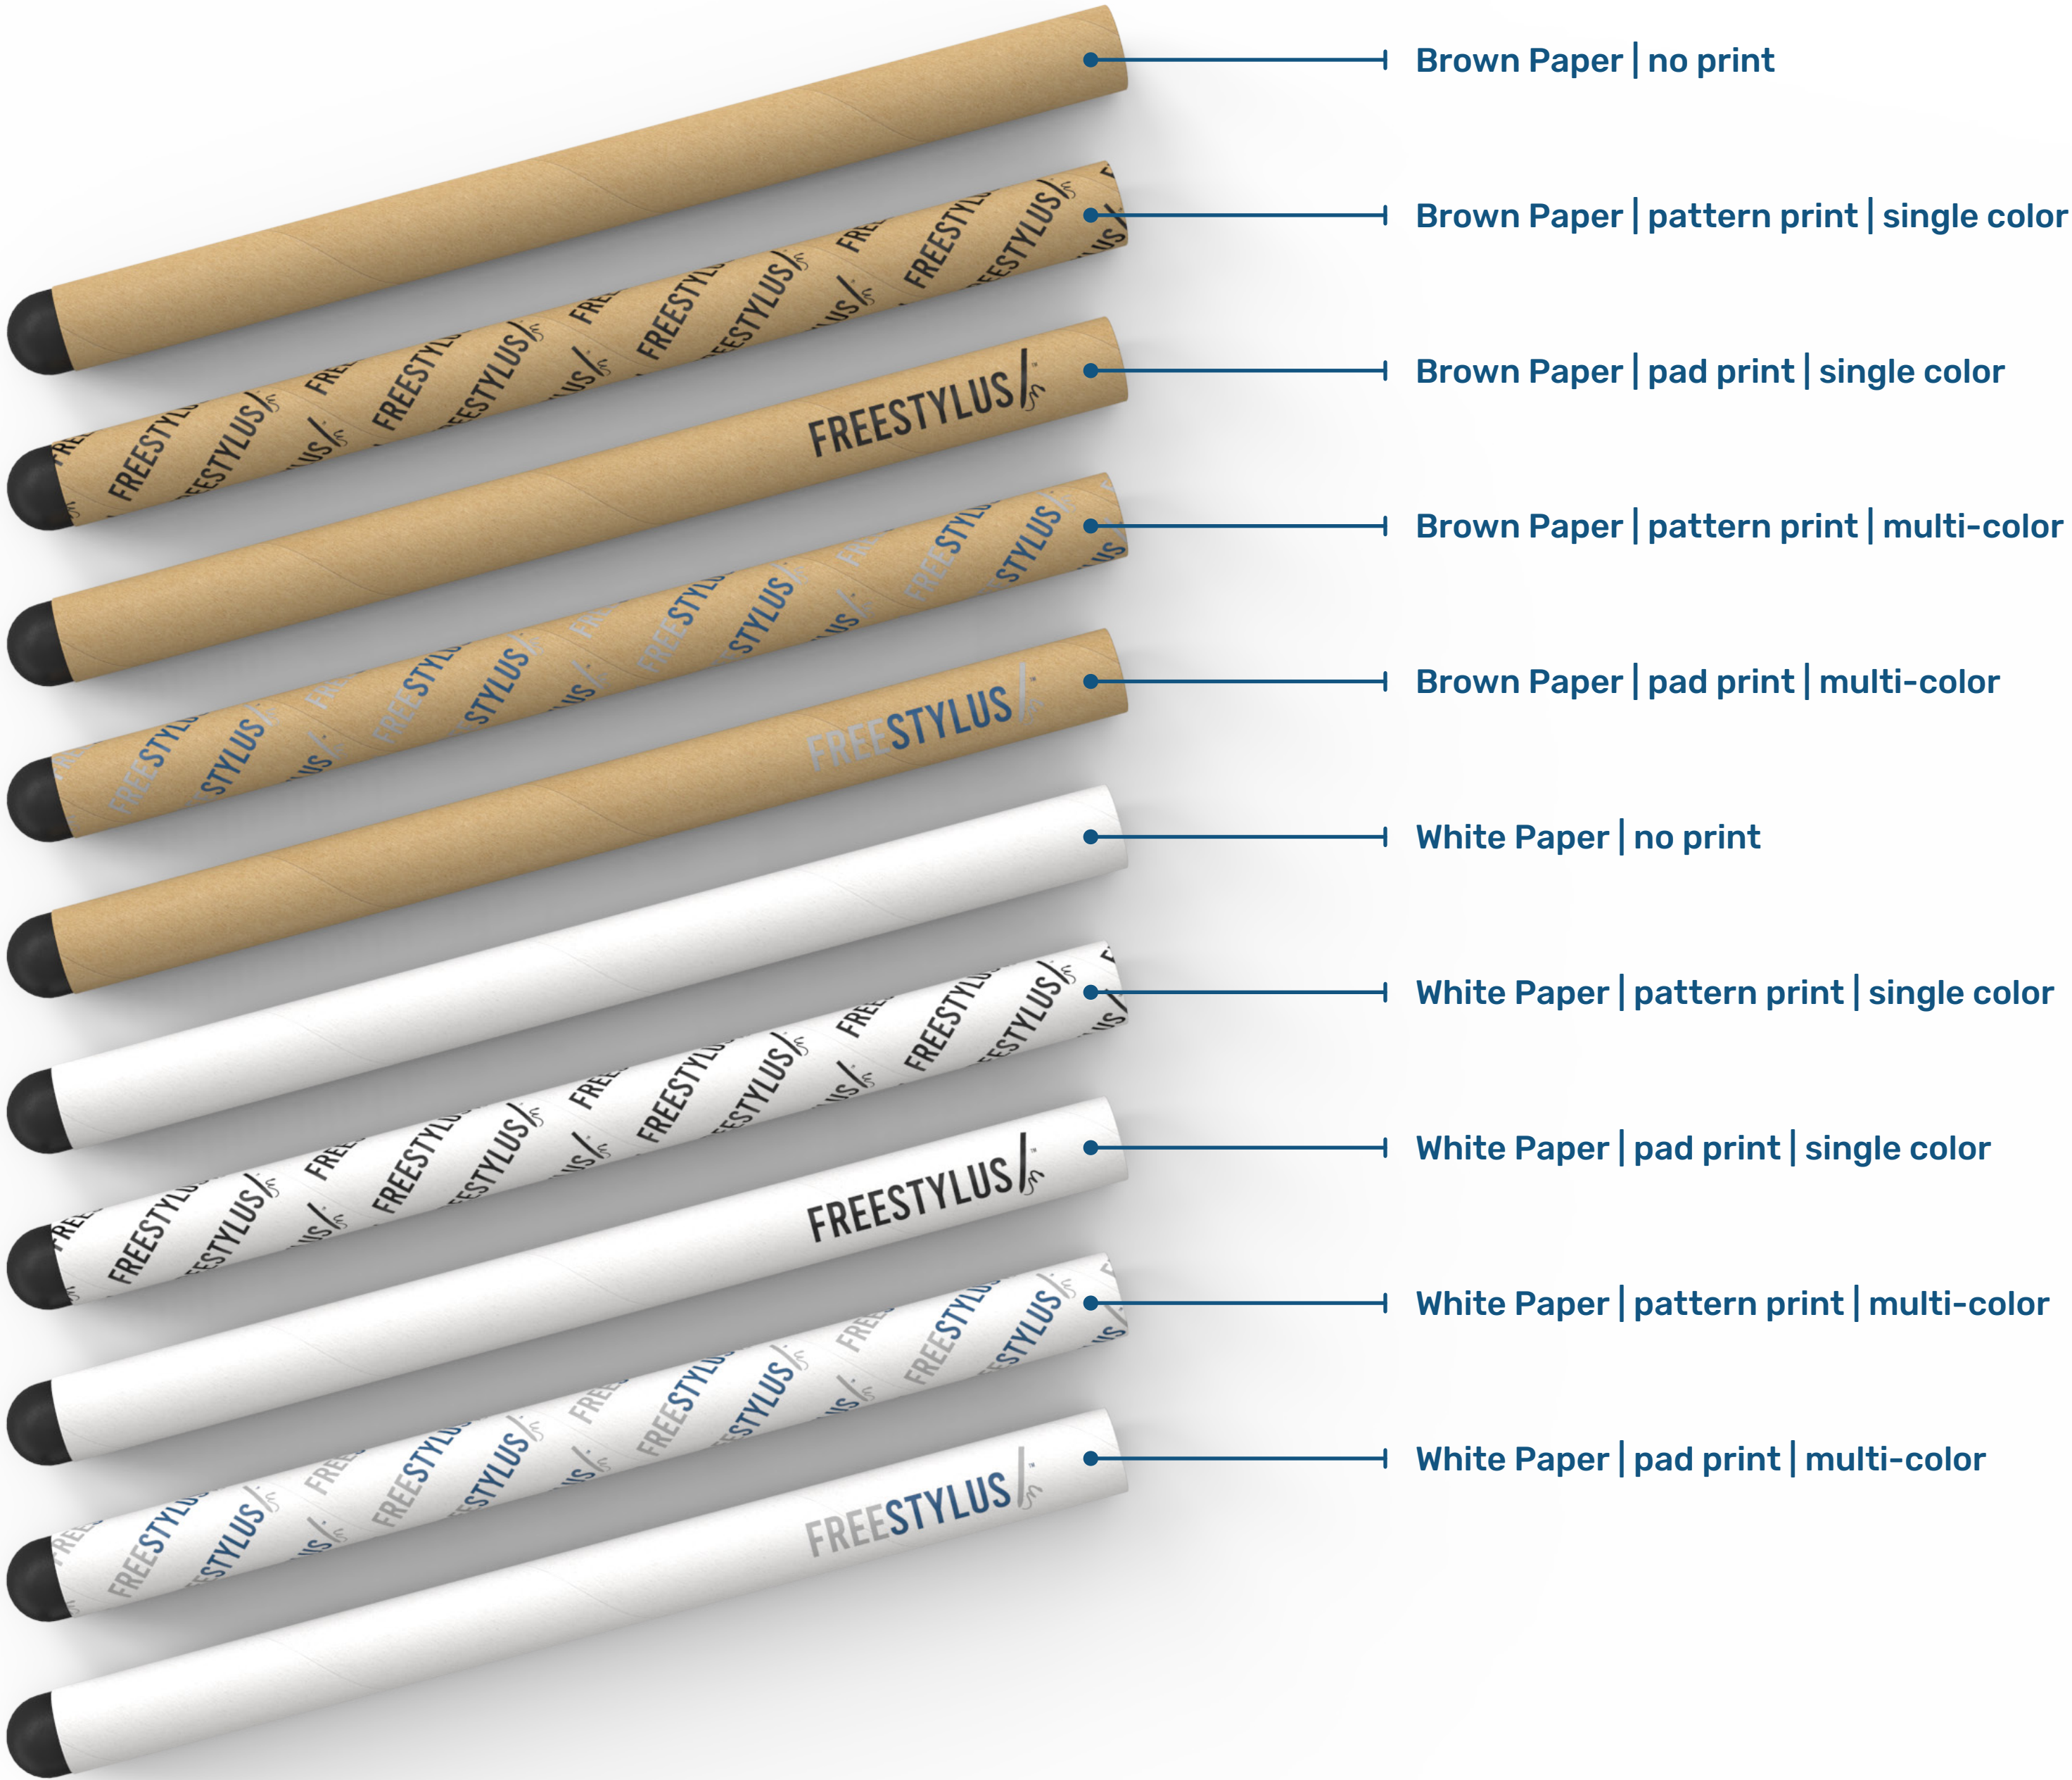

Stylus Imprint Options

The FreeStylus Has A Couple Of Options:

Our stylus is available in the standard brown paper with our FreeStylus logo pad printed in black. However, we have setup some options for our customers who want to add their brand to the stylus.

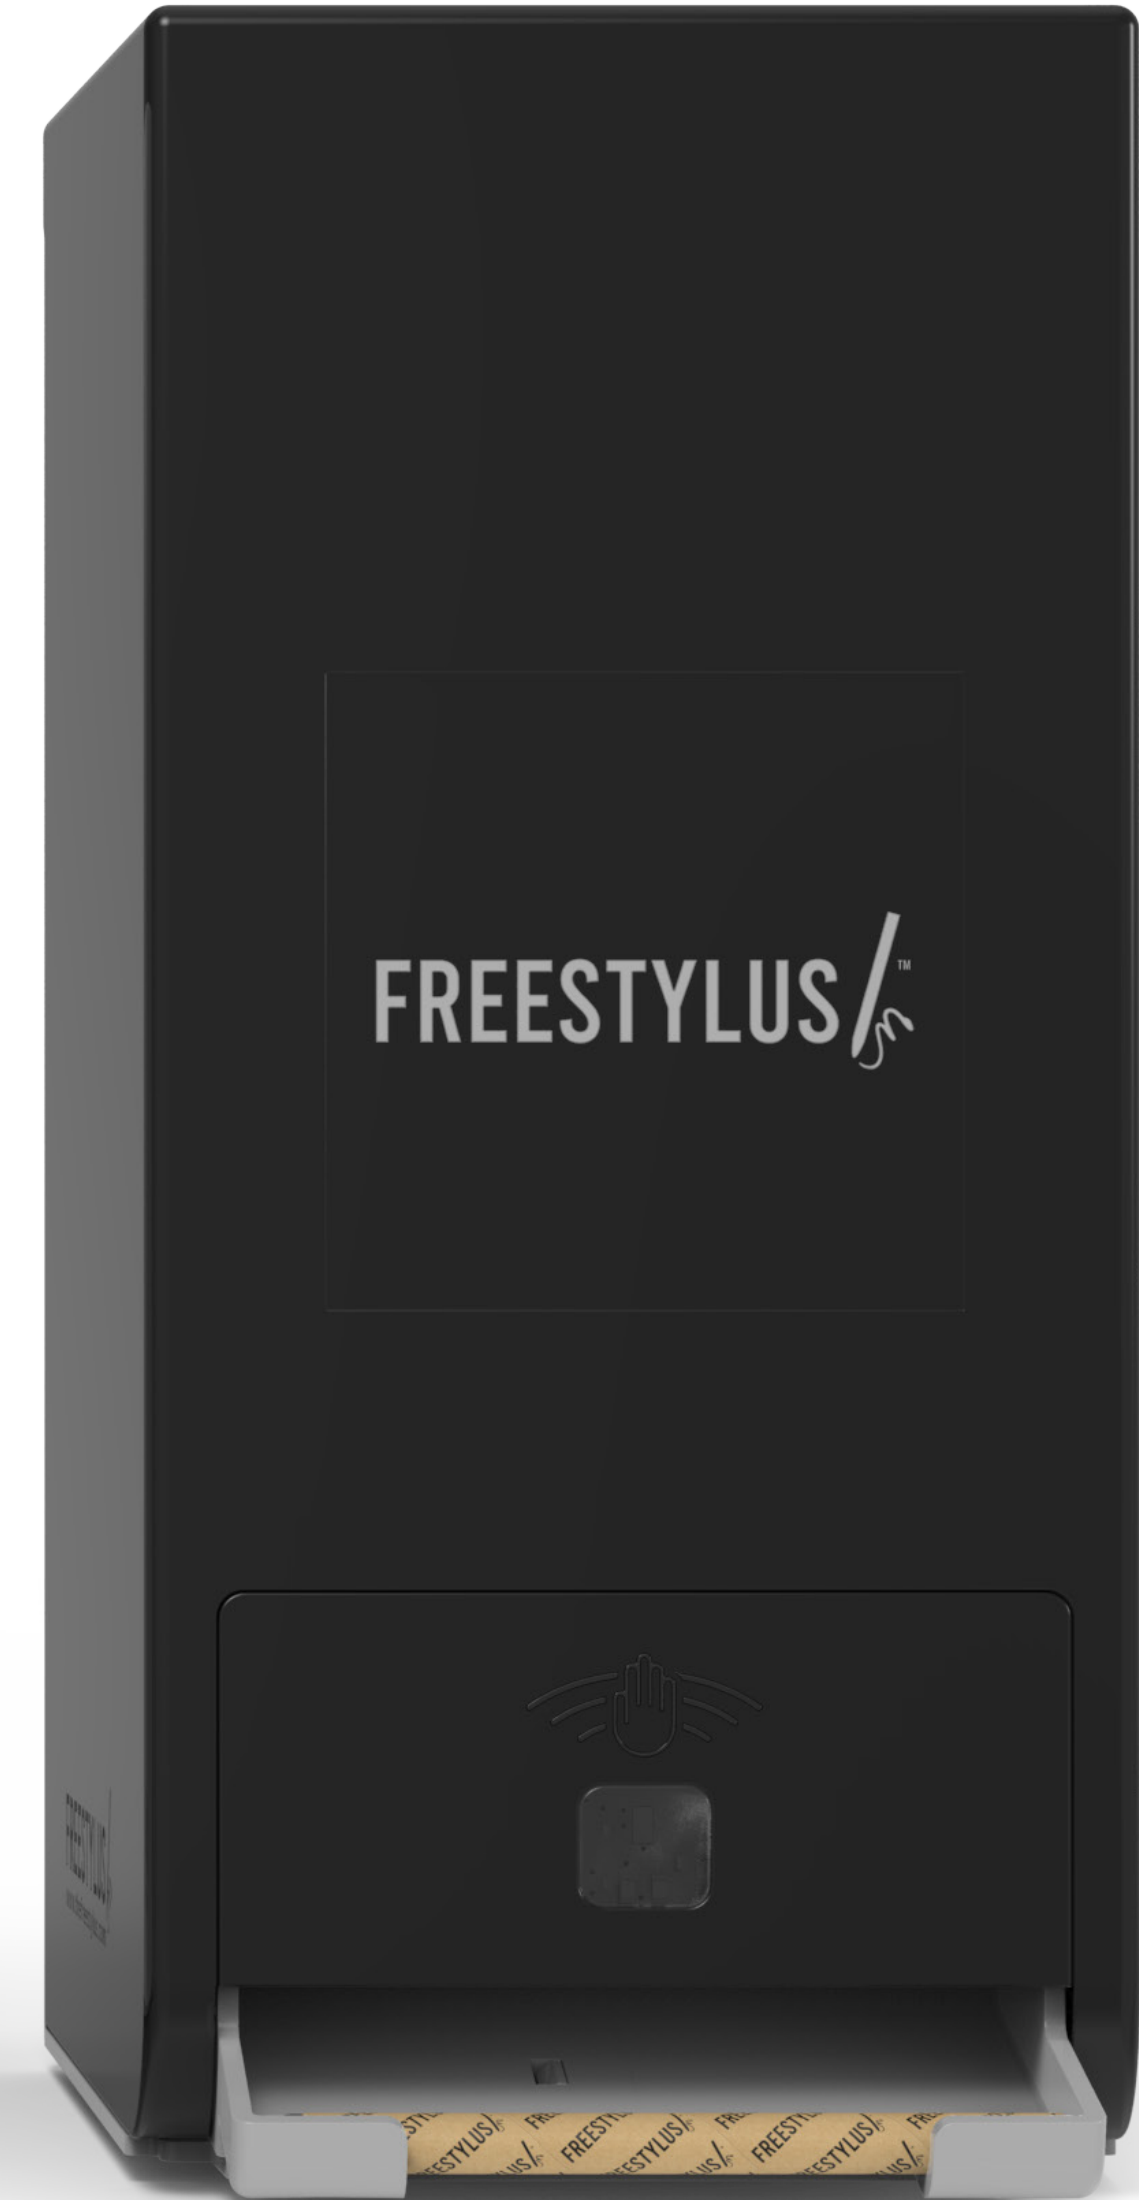

It is available in two different paper colors and two different imprinting methods. Between these two variables we are able to deliver 10 different potential options for the stylus’ look and brand-ability.

## Dispenser Imprint Options

### Our Dispenser Has A Couple Of Options:

The FreeMotion dispenser is available in black with gray or white with gray and comes with our logo imprinted on the front cover.

## Dispenser Imprint Options

### Customizing the Dispenser:

We have the ability to manufacture the FreeMotion dispenser with your company's logo as part of the front cover. This can include the addition of color as part of your logomark.

Ask one of our representatives if you are interested in this option.

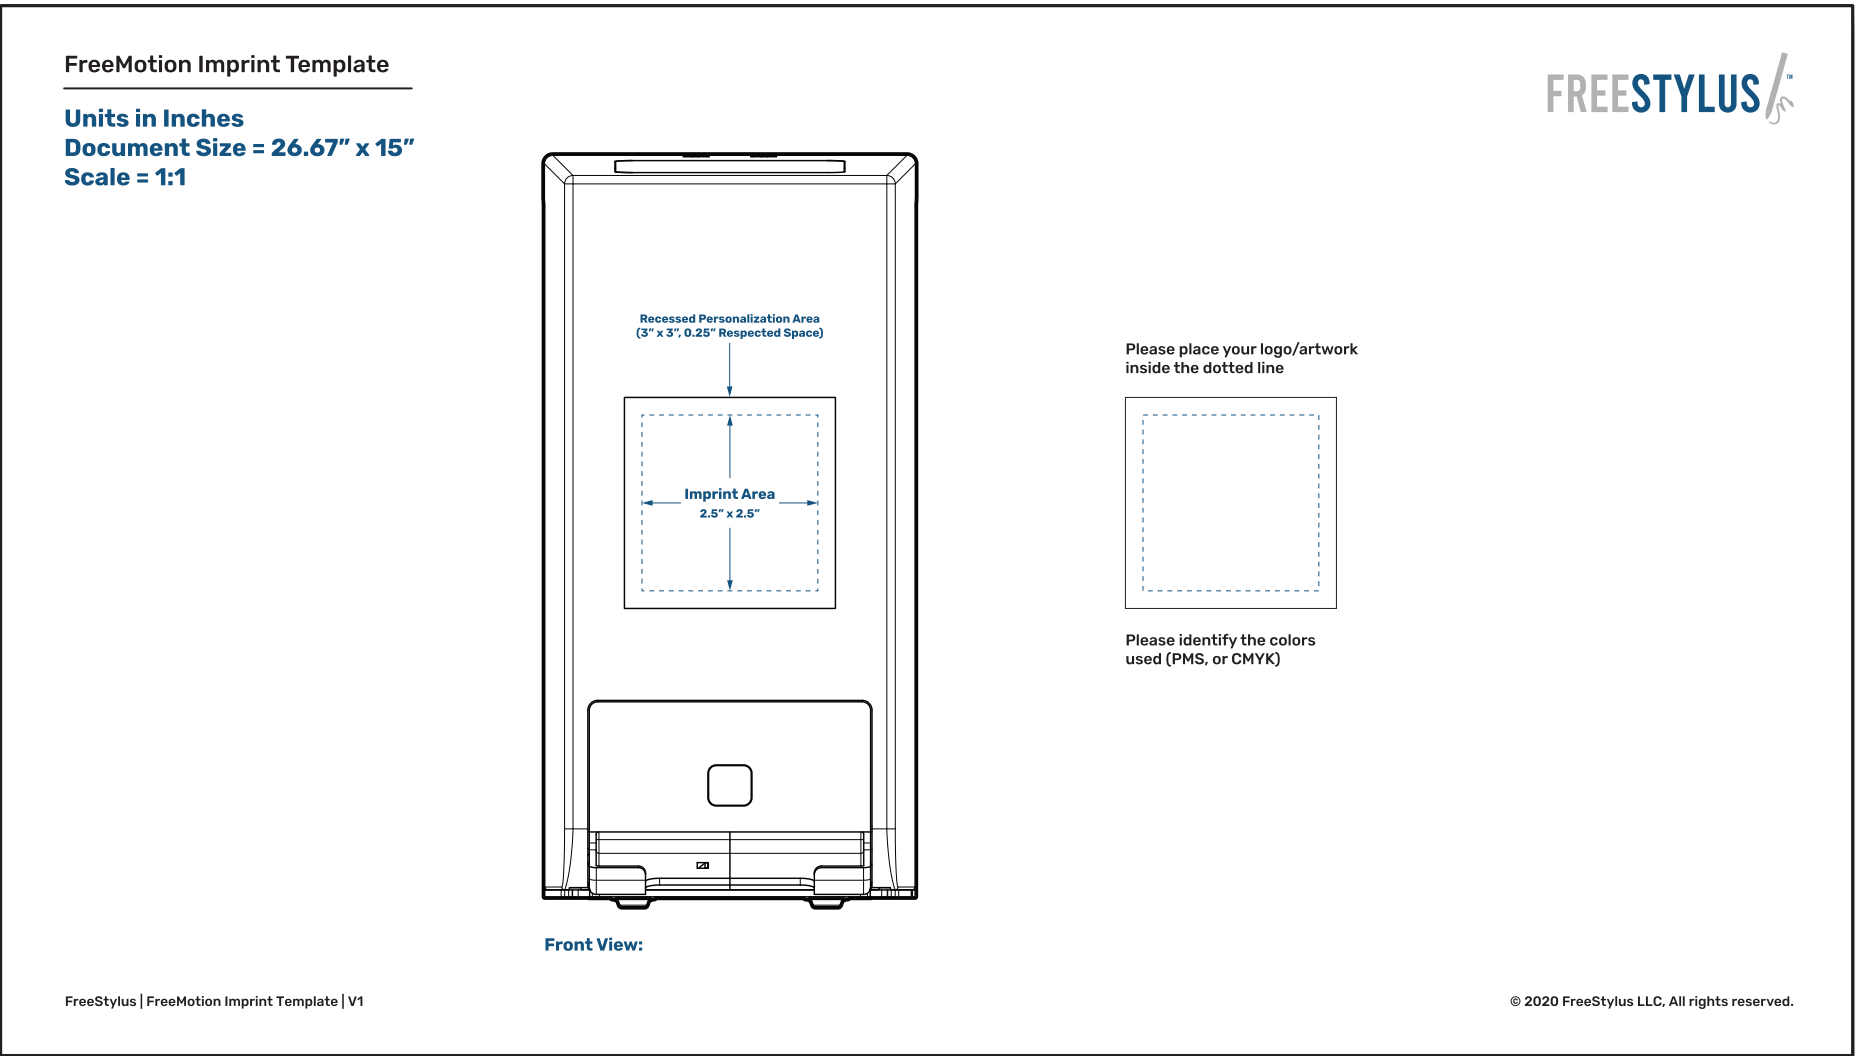

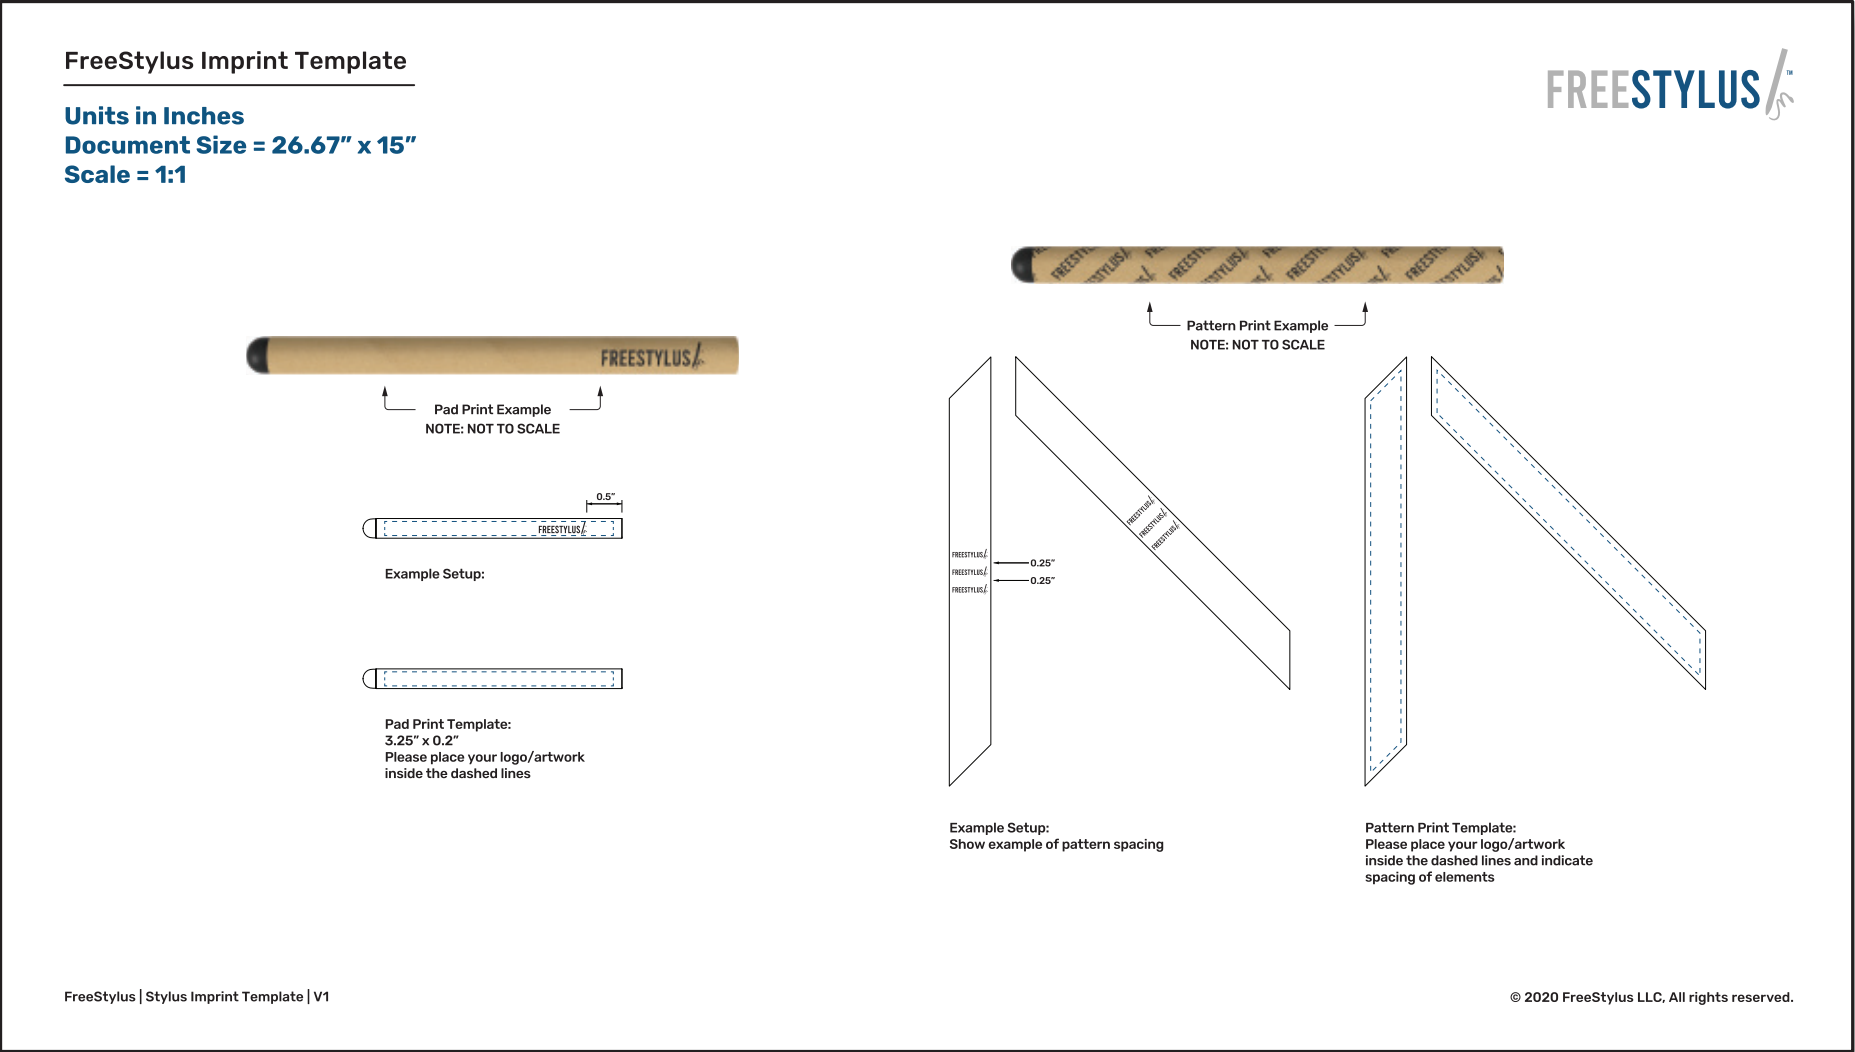

Customizing Imprint

If You Are Customizing Our Product:

FreeStylus has set-up a couple of easy-to-use templates for your reference to assist in setting up your artwork.

All you need to do is drop your artwork into the supplied file(s), and we will take care of the rest of the customization.

**THANK YOU**
